

Annual Security Report 2020

Annual Security Report

Healing Hands School makes available to all current and prospective students and employees, upon request, the School policies and procedures for maintaining campus security.

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act or Clery Act is a federal statute codified at 20 U.S.C. Section 1092(f). The Clery Act requires higher education institutions that participate in federal financial aid programs to keep and disclose information about crime on and near their respective campuses. Disclosures about crime statistics and summaries of security policies are made in an Annual Security Report (ASR) by October 1st each year or the date authorized the Department of Education. This year, due to the COVID-19 Pandemic, Healing Hands School will publish and distribute the 2020 Annual Security Report no later than December 31st, 2020. Faculty, staff, and all enrolled students are emailed a notification providing the website for this report, www.hhs.edu, under “Resources”. Copies of this report may also be obtained from the Director of Institutional Compliance by calling (760) 746-9364. Information about specific crimes and emergencies is made publicly available on an ongoing basis throughout the year.

Building Locations

Main Campus in Escondido: 125 West Mission Avenue, Suites 210, 212, and 215, Escondido, CA 92025

The campus crime statistics include crimes reported to local law enforcement agencies for the above building locations. The data also includes the parking lots and sidewalk-street-sidewalk immediately adjacent to our campuses.

Under Clery, the **on-campus** category encompasses the following:

Any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution's educational purposes, including residence halls; and

Any building or property that is within or reasonably contiguous to paragraph (1) of this definition, that is owned by the institution but controlled by another person, is frequently used by students, and supports institutional purposes (such as a food or other retail vendor).

The Clery definition of **non-campus buildings or property** is:

Any building or property owned or controlled by a student organization that is officially recognized by the institution; or Any building or property owned or controlled by an institution that is used in direct support of, or in relation to, the institution's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution.

Under Clery, **public property** encompasses the following:

All public property, including thoroughfares, streets, sidewalks, and parking facilities, that is within the campus, or immediately adjacent to and accessible from the campus.

Healing Hands School does not provide residential facilities for students.

There are no guarantees of personal safety in any environment. It is incumbent upon each individual to safeguard himself or herself against becoming the victim of a crime. One of the best ways to maximize your safety and minimize your risk is to follow some very simple security rules:

- Walk with a friend whenever possible.
- Always be aware of your surroundings and the people around you, no matter whether it is day or night.
- Use well-lighted, well-traveled routes. Avoid dark, vacant, or deserted areas.
- Walk with confidence. Show that you are aware and in control. Body language works.
- Trust your instincts. If someone or something makes you feel uneasy, get out or get away.
- If you feel you are being followed, move to a well-lighted and populated area or building, such as a store or restaurant, and call for assistance.
- If you are on campus after hours, stay alert.
- Lock office doors.
- Call 9-1-1 if you see or hear anything suspicious.
- Tell a friend or colleague where you are and when you plan to leave.
- When you are out by car, park in well-lighted areas. Avoid parking in secluded parts of a parking lot. Stick to high traffic areas.

No one is allowed to enter the school facilities before opening or after closing without authorization from a school official. Faculty and staff are responsible for the opening and closing school facilities.

The Conduct Policies are uniformly administered based on the degree of seriousness and nature of the misconduct. In all cases, the Director will participate in the review and decision making process of all incidents of unacceptable conduct, and will take the appropriate action.

- Based on the severity of the misconduct, the student may not receive a written warning.

Healing Hands Computer Use Policy

The Healing Hands School's computer use policy states: "Healing Hands considers violations of the computer use policy to be a disciplinary offense. Violators of the policy shall be dealt with to fullest extent of the student code of conduct, institutional policy, or (if applicable), criminal law and prosecution. Intentional attempts to impede, restrict, corrupt or in any other way disrupt the efficient operation of the

Institution's network computer system shall be construed as a blatant and intentional attempt to breach the integrity and security of the campus computer system, and shall be subject to the fullest extent of disciplinary policy and/or law."

Copyright Infringement Policies and Sanctions

Healing Hands School wants to protect you and our information resources. It is a violation of federal law and Healing Hands School policy to share and/or distribute copyrighted materials without permission of the copyright holder. Violators may be subject to civil and criminal prosecution under federal law, as well as personal sanctions specified in school policy.

Photocopies or reproductions of copyrighted material from the school library is not to be used for any purpose other than private study, scholarship, or research. If the user makes a request for, or later uses, a photocopy or reproduction for the purposes in excess of "fair use", that user may be liable for copyright infringement. The institution reserves the right to deny a copying order from any staff or faculty member, if, in its judgement, fulfillment of the order would involve a violation of copyright law.

Administrative computers provide scanners to faculty and staff. These scanners could be used to copy a book, journal, or other printed material. Scanning copyrighted material may also be a violation of the copyright law if done in excess of accepted "fair use."

File sharing software is most commonly used to download music and movies from the internet. Many do not realize that this software may turn your personal computer into a server, or upload site, even if that was not your intent. Many worms, viruses and other malicious code get transferred during peer-to-peer file transfers. Files on your network connected PC may then be illegally shared with every other person connected to the internet. It is imperative that the file sharing capability of these systems be disabled. If you do not know how to disable this function, please contact the front office. Industry representatives aggressively monitor the internet to discover incidents of illegal file sharing. When violations are discovered, they contact the network owner and/or the internet service provider and demand that the offending device be disconnected from the network. To protect the user and Healing Hands School from further responsibility under federal copyright law or school policy, the school IT specialist will disable network access for any machine for which a complaint of copyright infringement has been received.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense. For more information, please see the website of the U.S. Copyright Office at (www.copyright.gov).

Grievance Policy

The school encourages open, honest communication among staff, teachers and students. It is the policy of the Healing Hands School of Holistic Health to have a procedure and operational plan for handling complaints. The purpose of the Complaint Procedure is to provide a prompt and equitable process of resolving complaints by students, faculty, staff and public.

From time to time, differences in interpretation of school policies will arise among students, faculty, staff or the public. When such differences arise, usually a miscommunication or misunderstanding is a major contributing factor. For this reason, we urge individuals with complaints to communicate them to the appropriate school representative immediately.

Grievance Procedures

A student, faculty member, staff member or public may informally lodge a complaint by communicating orally or in writing to any instructor, administrator, admissions personnel or staff member as indicated in this policy. (The student is defined as an individual who is currently enrolled in an educational program at Healing Hands School of Holistic Health). If the complaint is not resolved, the student has the option to follow the Formal Complaint Procedure as described below. Note that the student's participation in the complaint procedure and the disposition of a student's complaint shall not limit or waive any of the student's rights or remedies.

A student or any member of the public may file a complaint about this Institution with the Bureau for Private Postsecondary Education by calling (888)370-7589 toll-free or by completing a complaint form which can be obtained on the bureau's website www.bppe.ca.gov.

Informal Complaint Procedure for Students

Students with grievances should first meet with their Course Instructor. If the complaint is not related to the educational program, the instructor will advise the student to contact the appropriate Healing Hands School administrator. Or, if, after meeting with the instructor, the student believes that the concern has not been satisfactorily resolved, the student should then follow the Formal Complaint Procedure as described below.

Formal Complaint Procedure

This formal complaint procedure is for students, faculty, staff, and the public:

- If a student, faculty or staff member, or public still has concerns, he/she is directed to follow the Formal Complaint Procedure by:
 - a) Preparing a written statement of complaint, that is signed, dated, and includes a clear and concise statement of the facts including pertinent dates.
 - b) Submitting the written statement of complaint to the Director within 10 days of the incident.
 - c) The Director may require the complainant to meet with School's representatives to discuss the grievance.
- The Director will review the written grievance, and will notify the student, faculty or staff member or public member, in writing, of the decision within 10 days of receiving the written complaint.
- Whether or not the problem or complaint has been resolved by the School to the complainant's satisfaction, he/she may contact the Bureau for Private Postsecondary and Vocational Education.

Student Complaint Records and Log

The School will maintain records and documentation related to complaints from students, faculty, or staff, including a 'GRIEVANCE LOG'.

Policy for Reporting Non-Injury Criminal Offenses on Campus

Reporting Procedures

The school encourages prompt reporting of all campus crime. Anyone who is a victim of a criminal offense on campus is instructed to immediately notify the School Director or other member of the Administration who are designated as the “Campus Security Authorities.” A Campus Security Authority (CSA) is an official of an institution who has significant responsibility for student and campus activities. An official is any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.

The Administrator will proceed as follows:

1. Make contact with the person(s) involved in the criminal offense to ascertain what has occurred.
2. Contact the local police to a criminal offense and to respond to campus site.
3. Wait with the victim(s) until the police arrive.
4. Detain individuals identified to be suspects of criminal offenses until law enforcement officers arrive.
5. The Administrator will complete a criminal offense report.
6. The Administrator will provide the School Owner with a copy of the criminal offense report.

Victims or witnesses of a crime may report the crime (or alleged crime) voluntarily and confidentially for inclusion in annual security report. The victim or witness should report crimes to the School Director/Campus Security Authority, Paula Curtiss. Students, staff, and visitors are encouraged to promptly report criminal activity to local authorities or call 911.

Healing Hands School does not employ any Pastoral or Professionals Counselors; therefore, the school is not required to report statistics for crimes reported to a pastoral or professional counselor. Healing Hands School does not have a campus police or security department. Healing Hands School is not required to maintain a daily crime log because it does not have any campus police nor security department.

Detention Policy

Any school personnel or student may physically hold and detain with “reasonable force” another individual if they have actually been an eyewitness to a crime being committed on the premises by that person. Do not risk personal injury. Do not strike or harm another person except in self-defense. If a crime is witnessed and the suspect cannot be detained, attempt to get an accurate description of the person(s), a license plate number and vehicle description. Notify the School Director or any administrative staff member for further direction.

Policy for Reporting On-campus Injury-Related Criminal Offenses and Medical Emergencies **Reporting Procedures**

The Director is to be notified immediately of any injury-related criminal offense or medical emergency.

The Director will respond as follows:

1. Make contact with the person(s) injured in the criminal offense or who is/are a victim/victims of the medical emergency, and immediately contact the police.
2. Advise the person(s) that the police have been called and medical treatment is being sought.
3. Wait with the victim(s) until the police and emergency personnel arrive.
4. Complete a criminal offense report.
5. Provide the School’s liability insurance representative with copies of the criminal offense report.

6. File a copy of the criminal offense report in the liability insurance file.
7. File the original copy of the criminal offense report in the student(s)' file.
8. Update the current year Criminal Offense Report (COR), and place a copy of the report in the COR file.

Upon written request, the School will disclose to the alleged victim of a crime of violence (as that term is defined in Section 16 of Title 18, United States Code), or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by such institution against a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as the alleged victim for purposes of this statement.

Timely Warning

Healing Hands School will provide a timely warning to the school community whenever the campus authorities have determined that a serious or continuing threat to students and employees exists. The following crimes, whether reported to the Campus Security Authorities or the police, are considered to represent a threat to students and employees:

- criminal homicide including (a) murder and non-negligent manslaughter, and (b) negligent manslaughter
- forcible and non-forcible sex offenses
- robbery
- aggravated assault
- burglary
- motor vehicle theft
 - arson
- arrests for violations of liquor and drug laws
- arrests for illegal weapons possession
- persons not arrested but referred for campus disciplinary action for liquor, drug, and weapons violations
- crimes listed above or otherwise result in bodily injury that show evidence of prejudice based on race, gender, religion, sexual orientation, ethnicity, or disability

In addition to these examples, timely warnings may also be issued for other crimes that campus authorities have determined may pose a serious or continuing threat to the community, such as violent crimes or threats to persons or property. An example would be a kidnapping that has occurred on campus. Instances such as these should be reported to a Campus Security Authority. The CSA will report to an Authorized Official who will issue the timely warning. Timely warnings will be determined on a case-by-case basis and will be based on the following: nature of the crime, continuing danger to the campus community, and possible risk of compromising law enforcement efforts.

In addition, students are to advise a faculty member or other School employee, if they have seen or are aware of any compromises in security matters. In case of an emergency, students are directed to immediately notify a School employee. Employees have been instructed in how to obtain the services of the appropriate professional help in the most expedient manner.

The HEA defines the crime categories of domestic violence, dating violence, and stalking in accordance with section 40002(a) of the Violence Against Women Act of 1994 as follows:

“Domestic Violence” means a “felony or misdemeanor crime of violence committed by

- A current or former spouse or intimate partner of the victim,
- A person with whom the victim shares a child in common,
- A person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner,
- A person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies (under VAWA), or
- Any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of the jurisdiction.”

“Dating Violence” means “violence committed by a person

- Who is or has been in a social relationship of a romantic or intimate nature with the victim; and
- Where the existence of such a relationship shall be determined based on a consideration of the following factors: the length of the relationship, the type of the relationship, and the frequency of interaction between the persons involved in the relationship.”

“Stalking” means “engaging in a course of conduct directed at a specific person that would cause a reasonable person to

- Fear for his or her safety or the safety of others; or
- Suffer substantial emotional distress.”

“Consent” means “the affirmative, unambiguous, and voluntary agreement to engage in a specific sexual activity during a sexual encounter.” Under this definition, an individual who was asleep, or mentally or physically incapacitated, either through the effect of drugs or alcohol or for any other reason, or who was under duress, threat, coercion, or force, would not be able to consent. Further, one would not be able to infer consent under circumstances in which consent was not clear, including but not limited to the absence of “no” or “stop,” or the existence of a prior or current relationship or sexual activity.

Domestic Violence as defined by the California Penal Code 13700 - *“Domestic violence” means abuse committed against an adult or a minor who is a spouse, former spouse, cohabitant, former cohabitant, or person with whom the suspect has had a child or is having or has had a dating or engagement relationship. For purposes of this subdivision, “cohabitant” means two unrelated adult persons living together for a substantial period of time, resulting in some permanency of relationship. Factors that may determine whether persons are cohabiting include, but are not limited to, (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as spouses, (5) the continuity of the relationship, and (6) the length of the relationship.*

Dating Violence as defined in California Penal Code 243(e)(1) - *When a battery is committed against a spouse, a person with whom the defendant is cohabiting, a person who is the parent of the defendant’s child, former spouse, fiancé, or fiancée, or a person with whom the defendant currently has, or has previously had, a dating or engagement relationship.*

Stalking as defined in California Penal Code 646.9(a) - *Any person who willfully, maliciously, and repeatedly follows or willfully and maliciously harasses another person and who makes a credible threat with the intent to place that person in reasonable fear for his or her safety, or the safety of his or her immediate family is guilty of the crime of stalking.*

Consent as defined in the California Penal Code 261.6 - *In prosecutions under Section 261, 262, 286, 288a, or 289, in which consent is at issue, “consent” shall be defined to mean positive cooperation in act or attitude pursuant to an exercise of free will. The person must act freely and voluntarily and have knowledge of the nature of the act or transaction involved. A current or previous dating or marital relationship shall not be sufficient to constitute consent where consent is at issue in a prosecution under Section 261, 262, 286, 288a, or 289. Nothing in this section shall affect the admissibility of evidence or the burden of proof on the issue of consent. Penal Code section 261.6*

Campus Sexual Assault Prevention Programs

Sexual violence (SV) is a significant problem in the United States. SV refers to sexual activity when consent is not obtained or not given freely. Anyone can experience SV, but most victims are female. The person responsible for the violence is typically male and usually someone known to the victim. The person can be, but is not limited to, a friend, intimate partner, coworker, neighbor, or family member.

All incoming students and new employees, as well as current students and employees, are asked to visit the Centers for Disease Control and Prevention's website, <https://www.cdc.gov/violenceprevention/sexualviolence/>, and watch the following videos to learn more about sexual violence, such as dating violence, domestic violence, sexual assault and stalking. The CDC's research and programs work to understand the problem of sexual violence and prevent it before it begins.

Bystander Intervention

Bystander intervention involves safe and positive actions that a student or employee may take to help prevent harm or intervene when there is a risk.

- Notice the Incident - Bystanders first must notice the incident taking place.
- Interpret Incident as Emergency - Bystanders also need to evaluate the situation and determine whether it is an emergency, or at least one in which someone needs assistance.
- Assume Responsibility - Another decision bystanders make is whether they should assume responsibility for giving help. If a lone bystander is present he or she is more likely to assume responsibility than if there are other bystanders present.
- Attempt to Help – Examples include to help the person leave the situation, confront a behavior, diffuse a situation, or call for other support/security.

Safety Planning

The following information about safety planning is from RAINN (Rape, Abuse & Incest National Network), the nation's largest anti-sexual violence organization. RAINN created and operates the National Sexual Assault Hotline (800-656-HOPE, www.rainn.org) in partnership with more than 1,000 local sexual assault service providers across the country and operates the DoD Safe Helpline for the Department of Defense. RAINN also carries our programs to prevent sexual violence, help survivors, and ensure that perpetrators are brought to justice.

For many people who have been affected by sexual assault, current and long-term safety can be an ongoing concern. Safety planning is about brainstorming ways to stay safe that may also help reduce the risk of future harm. It can include planning for a future crisis, considering your options, and making decisions about your next steps. Finding ways to stay and feel safer can be an important step towards healing, and these plans and actions should not increase the risk of being hurt.

Safety planning when someone is hurting you:

- **Become familiar with safe places.** Learn more about safe places near you such as a local domestic violence shelter or a family member's house. Learn the routes and commit them to memory.
- **Create a code word.** It might be a code between you and your children that means "get out," or with your support network that means "I need help."
- **Keep computer safety in mind.** If you think someone might be monitoring your computer use, consider regularly clearing your cache, history, and cookies. You could also use a different computer at a friend's house or a public library.
- **Lean on a support network.** Having someone you can reach out to for support can be an important part of staying safe and recovering. Find someone you trust who could respond to a crisis if you needed their help.
- **Prepare an excuse.** Create several plausible reasons for leaving the house at different times or for existing situations that might become dangerous. Have these on hand in case you need to get away quickly.
- **Stay safe at home.** If the person hurting you is in your home, you can take steps to feel safer. Try hanging bells or a noise maker on your door to scare the person hurting you away, or sleep

in public spaces like the living room. If possible, keep the doors inside your house locked or put something heavy in front of them. If you're protecting yourself from someone who does not live with you, keep all the doors locked when you're not using them, and install an outside lighting system with motion detectors. Change the locks if possible.

Safety planning when someone is stalking you:

- **Be prepared to reach out.** If possible, keep your cell phone charged and have emergency contact numbers programmed ahead of time. You may want to save these contacts under a different name. Memorize a few numbers in case you don't have cell phone access in the future.
- **Change your routine.** Be aware of your daily routine and begin to alter it over time. Switch up the way you commute more often, taking different routes or different modes of transportation. Visit the **Stalking Resource Center** for more ways to stay safe (victimsofcrime.org/our-programs/stalking-resource-center/help-for-victims/stalking-safety-planning)
- **Tell someone you trust.** Stalking shouldn't be kept a secret. Tell your loved ones, parents or other trusted adults, or the local police to determine if a report can be made.

Safety planning when leaving the person hurting you:

- **Make an escape bag.** Pack a bag that includes all important papers and documents, such as your birth certificate, license, passport, social security card, bills, prescription drugs, and medical records. Include cash, keys, and credit cards. Hide the bag well. If it's discovered, call it a "hurricane bag" or "fire bag." If you are escaping with children, include their identifying information as well.
- **Plan a destination.** If you're not going to stay with someone you know, locate the nearest domestic violence shelter or homeless shelter.
- **Plan a route.** Then plan a backup route. If you are driving, have a tank of gas filled at all times. If you rely on public transportation, know the routes departure times. Many public transportation systems have mobile apps that update their schedules and arrival times.
- **Prepare your support network.** Keep your support network in the loop. Let them know how to respond if the perpetrator contacts them.
- **Important Safety Note:** If the dangerous situation involves a partner, go to the police or a shelter first.

If you are in a domestic violence situation and need help, call the National Domestic Violence Hotline at 800-799-SAFE (7233). You can visit www.thehotline.org/help/path-to-safety/ to learn more about safety planning.

Emergency Preparedness Plan

The safety of our students, faculty and staff at Healing Hands School of Holistic Health is our highest priority. Healing Hands monitors weather conditions and has an emergency plan to address weather emergencies and any other crises that may affect its main campus in Escondido or campus in Laguna Hills. No matter what the emergency, our Emergency Operations Team meets regularly and stands ready to work in cooperation with the cities of Escondido, Kearny Mesa, and Laguna Hills and other government agencies to coordinate emergency procedures should the need arise.

Emergency Notification

Classes, functions, and events will proceed as scheduled unless you are notified otherwise. Before, during and after any emergency, we will issue notifications of campus status and other pertinent information as needed through a variety of communication mechanisms, including the Healing Hands website, email messages and in-classroom announcements. Unless electrical power or electronic communication is unavailable following a storm or emergency, the Healing Hands Facebook page will be the official source for information. Status updates will be posted on our Facebook, and emailed to all students, staff, and faculty. If the school is closed, a message will be on the main number; recorded messages will be made available at our main number (760) 746-9364. Should telephone and electronic communication be interrupted, information fliers will be posted at the entrance to our buildings at our Main campus in Escondido, our additional classroom in San Diego, and Non-main campus in Laguna Hills.

The School will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency. Healing Hands School will the emergency response and evacuation procedures on at least an annual basis. Tests may be announced or unannounced. The School will publicize its emergency response and evacuation procedures in conjunction with at least one test per calendar year, documenting, for each test, a description of the exercise, the date and time and whether it was announced or unannounced.

Students are encouraged to talk to their family members about ways of getting in touch with one another should normal communication be disrupted. Students and parents are reminded that Healing Hands will likely be a safe place to be during an emergency should immediate travel not be a viable option.

The school's Emergency Preparedness Plan contains procedures for specific emergencies including

- Severe Weather
- Civil Disturbances (Protests)
- Structural Collapse
- Criminal/Violent Incident
- Health Concern – Pandemic
- Fire
- Bomb Threat
- Suspicious Packages
