

## **2020-2021 Annual Catalog Addendum**

### Approval for Delivery of 'Hybrid' or 'Blended' Education

Healing Hands School has been granted approval by our accrediting agency, Accrediting Bureau of Health Education School [ABHES], to provide 'hybrid' or 'blended' delivery of education. This allows us to continue to use the combination of in-person classes AND on line webinars in both the Massage Therapy and the Holistic Health Practitioner programs.

Temporarily, we separated 20 hours of the anatomy portion of the 100 hour Circulatory Massage course so to teach on line and identified this as 'Introduction to Massage Therapy'. With the above approval, we now re-include the 20 hours of on line anatomy with Circulatory Massage bringing the course back to its original '100 hour Circulatory Massage'.
